MUSIC

There are no egos when it comes to our musicians.
They are all professionally trained and experienced, performing in front of many different audiences and age ranges.
We will endeavour to find out as much as possible about our clients and their guests music tastes, using this knowledge to perform our sets, whilst reading the crowd in front of us and using our experience to know what to play next.
For something a bit different and unique, we can recommend musicians that work well together, creating a DJ LIVE BAND experience.
